Harassment Prevention Workshop

Presented by Cindy Poulos of DiscoverLink, and Christine Andrews of Hostmark

In this session we'll talk about why you must address harassment prevention now and share some proactive steps to take immediately in your quest to ensure a respectful workplace. But for harassment prevention to work effectively it must be part of an ongoing initiative. During the workshop portion of the session, we'll collaborate to create some sample exam questions and practice activities that you can use as part of a blended learning program.
